

Screenshots of CI/CD Pipeline

Azure DevOps interface showing the 'azure-dataprocessing-pipeline' repository. The left sidebar shows navigation options like Overview, Boards, Repos, Files, etc. The main area displays the repository structure with files like azure-pipelines.yml, clean_sales_data.csv, data_processing.py, raw_sales_data.csv, requirements.txt, and README.md. A commit message 'Committed 10e687c2: Added 2 files to /azure-dataprocessing-pipeline' is visible at the top.

Azure DevOps interface showing the 'Set up CI with Azure Pipelines' build. The left sidebar shows navigation options like Overview, Boards, Repos, Pipelines, etc. The main area displays the build summary for 'Set up CI with Azure Pipelines' (11) by Rajpriya Vondivillu Raja. The build is in 'Queued' status. The summary shows repository and version information, time started and elapsed, related work items, and tests and coverage.

| Name | Status | Duration |
|------|--------|----------|
| Job | Queued | |
